Princess Cruiser Tips

Toilet System/Vacuum System: Ruby Princess, as all modern cruise ships, is equipped with an EVAC toilet system that uses the vacuum pump principle. The system is very reliable, but the pipe work is much smaller than those ashore and is sensitive to foreign objects and large amounts of toilet paper. In order to avoid blockages and subsequent inconvenience to guests, please place any foreign objects in the waste bins and sanitary bags provided.

Hey, parents! We know you want your kids to stay safe while having a fun vacation. And so do we! So just as a reminder, when your children are not in the Youth & Teen center, they are your responsibility (just like at home!). Keep an eye on where they are and what they're doing. Also, because we want all our guests on board to have a relaxing vacation experience, please make sure children are not being loud or disruptive, running in public spaces, etc. Let's all have a great time and create memories we'll cherish for a lifetime. Thanks!

Gangway locations vary by port and depend on weather conditions, tides, and ship location. Available gangways/exits may change throughout the day. Visit the digital portals throughout the ship for specific gangway locations. Upon arrival, there is no need to wait at the gangway. Instead, enjoy the comfort of your stateroom or any public venue while immigration formalities are completed. **An announcement will be made in public areas when the gangway is open. Princess Cruiser Tips

Toilet System/Vacuum System: Ruby Princess, as all modern cruise ships, is equipped with an EVAC toilet system that uses the vacuum pump principle. The system is very reliable, but the pipe work is much smaller than those ashore and is sensitive to foreign objects and large amounts of toilet paper. In order to avoid blockages and subsequent inconvenience to guests, please place any foreign objects in the waste bins and sanitary bags provided.
